

Red Cliffs Condominiums Homeowner's Association

June 2019 Newsletter

We wanted to let everyone know about things...

- The pool repairs are complete and the pool is officially open. Please make sure that you and your guests are familiar with the pool rules but here are a few highlights.
 - No Glass Allowed!
 - Children must be supervised. Do not let your kids go to the pool alone.
 - Pets are not allowed in the pool area.
- The building staircases are scheduled to be power washed next Wednesday, June 26, 2019. Please pull your front door mats in on this day to ensure they don't get too wet while the work is being done.
- Flowerpots on your decks must be attached to the interior rail. Flowerpots attached to the outside rail are not allowed due to the possibility of them falling and causing damage.
- Propane grills must be placed away from the building siding. The building siding is 40-year-old wood that has an extreme fire risk when exposed to the heat from the gas grills. There has been a near fire recently because of this situation.
- Bears are back and in the area. Please be sure to dispose of your trash in the dumpster. Never leave the trash to the side or in front of the dumpster. There are two sides of each dumpster to put trash into. Be sure to check both sides as there may be room on the other side if it looks full and always be sure to shut the door completely. Never place bulk items at the dumpster. If items do not fit in the dumpster you will need to haul them away yourself.

If any problems, concerns or questions should arise regarding the Red Cliffs Condominiums, please do not hesitate to contact Crystal Property Management at (970) 945-7266.
